Digital Screen

Remote Operation

On/Off

Press this button to turn on with F1 on screen. Press this button to turn off with nothing on screen.

This button no function

Adjust flame brightness

Default F1. F1-F2-F3-F4-F5-F6-F1. The number corresponds to flame brightness.

Display	F1	F2	F3	F4	F5	F6
Set	1	2	3	4	5	6
Brightness	100%	80%	60%	40%	20%	0%

Heater (Be off by default)

1."LL" 1-level heater with one icon 

2."HH" 2-level heater with two icons 

Temperature rises

The default startup temperature is 19°C. Short press to rise one degree.

Temperature cycle: 19-30°C(66-68°F). Long press for 5 seconds to convert temperature units. C(F) can be turned off for heating.

Temperature reduces

Short press to reduce 1 degree. Rising to a certain temperature, it will turn off the heating when it rises by 1 degree. Reducing to a certain

temperature, it will turn on the heating when it reduces by 2 degrees.

Timer

It's disabled by default. Short pressing will adjust the timer range from 30Min-1H-2H-3H-4H-5H-6H-7H-8H-30Min. The symbol light is on by default.

This button no function

Day timer

There is a timing function. When turning on the fireplace, the timer icon light will be on. The clock will show 00:00. The week icon light will be on and show SUN.

When the timer is needed after turning on, press "DAY" button on remote control. Each time you press the button, the week icon light will be on from left to right to set the time to the current date.

Hour timer

Each time you press the "HOUR" button, the time is increased by one hour. Set the time to the current hour, hour timer scope is: 00-23.

Minutes timer

Each time you press the "MIN" button, the time is increased by one minute. Set the time to the current minutes, minutes timer scope is: 00-59.

When it is not unplugged or disconnected, the on-off time will have memory function, which will not be reset. If unusual timer is discovered, the batteries powering the mainboard may be dead. Please replace the batteries quickly. (Battery Model: CR1220-3V), (Each time you press the

button, the buzzer will make a short sound.)

Week timer

It has a week timing switch function.

1. First press “WEEK TIME” button, the week icon will turn the current time to SUN(Sunday) and flash. The icon of clock and ON will flash at the same time.
2. Set the startup time of the day. Press “HOUR” button to set starting up hour, press “MIN” button to set starting up minutes. (Each time you press the button, the number will increase 1.) Then press “SET UP” button to confirm. ON light will be off and OFF light will be on.
3. Set the off time of the day, the process is the same with setting the startup time. After setting for one day, press “WEEK TIME” again to set for another day.
4. If you don't operate the week timer during the week display flashes for ten seconds, the clock on the digital screen will be always on. The light of ON/OFF will be off. (Each time you short press the button, the buzzer will make a short sound.)

On/Off week timer

2. After the alarm is on, press the heater or temperature button to clear alarm reminder.

This button No function

Information requirements for electric local space heaters

CAMINETTO-VULCANO

Model identifier(s):				
Item	Symbol	Value	unit	
Heat output				Type of heat input, for electric storage local space heaters only (select one)
Nominal heat output	P_{nom}	1,5	kW	manual heat charge control, with integrated thermostat [no]
Minimum heat output (indicative)	P_{min}	0,75	kW	manual heat charge control with room and/or outdoor temperature feedback [no]
Maximum continuous heat output	$P_{max,c}$	1,5	kW	electronic heat charge control with room and/or outdoor temperature feedback [no]
Auxiliary electricity consumption				fan assisted heat output [no]
At nominal heat output	el_{max}	0,000	kW	Type of heat output/room temperature control (select one)
At minimum heat output	el_{min}	0,000	kW	single stage heat output and no room temperature control [no]
In standby mode	el_{sb}	0,000	kW	Two or more manual stages, no room temperature control [no]
				with mechanic thermostat room temperature control [no]
				with electronic room temperature control [no]
				electronic room temperature control plus day timer [no]
				electronic room temperature control plus week timer [yes]
				Other control options (multiple selections possible)
				room temperature control, with presence detection [no]
				room temperature control, with open window detection [yes]
				with distance control option [no]
				with adaptive start control [no]
				with working time limitation [yes]
				with black bulb sensor [no]
