### SHOWERS PALAU SERIES

Elegant and high quality SINED shower for outdoor, PALAU series. Only cold water. For your garden or your pool. Easy installation and maintenance.

Outdoor Shower  
simple installation manual  
for Cold Water Only

## **WARNINGS**

It is recommended to read the instructions carefully before installing and using the shower.

This manual contains important information for the correct use and maintenance of your shower and should be kept for any future needs.

### **Contents**

The package contains

- Shower with mixer tap and shower head.
- Installation kit complete with screws
- Use and Maintenance Manual

#### **1) Installation**

The installation must be carried out by specialized personnel on a solid support, perfectly flat and level, capable of supporting the weight of the shower and preventing it from falling.

The installation procedure is explained in detail in the attached leaflet that forms an integral part of this manual.

#### **2) Utilization**

The showers are particularly sensitive to impurities and limescale and, if installed outdoors, to low temperatures during the winter.

- It is recommended to purge the system before connecting the water hose to prevent dirt and impurities from getting inside the shower creating malfunctions.
- To avoid the formation of limescale it is strongly recommended to install a special filter at the water inlet and to periodically clean the shower, nozzles and shower head.
- Before the winter period or in case of prolonged non-use, it is recommended to turn off the water supply and completely empty the shower.  
It is also advisable to disassemble the shower and store it during the winter or in any case to protect the shower with adequate covers.

#### **3) Cleanliness**

- To avoid the formation of stains due to limescale on the external parts of the shower, simply clean it with a damp cloth and soap, rinse and dry it.
- Do not use aggressive or abrasive detergents or detergents containing alcohol, hydrochloric acid or phosphoric acid.
- The ideal is to use a toothbrush with toothpaste.

#### 4) Guarantee

SINED showers have a 2-year warranty from the date of purchase for defects in materials and workmanship.

- Components subject to wear are excluded from the warranty, including mixers, shower heads, taps, etc.
- Damage due to incorrect assembly, improper use and incorrect maintenance (e.g. use of inappropriate detergents) is not covered by the warranty.
- Damages deriving from the use of non-original spare parts are not covered by the warranty.
- Any damage resulting from interventions not performed by specialized technicians is not covered by the warranty.
- Damage due to frost, limescale or other impurities inside the shower is not covered by the warranty.

In the presence of problems covered by warranty, the product must be returned to the seller.

- The product must be carefully packaged and complete with all its parts and accessories;
- The reason for the return must be described in detail and proof of purchase (invoice or receipt) must be provided;
- The shipping costs of the return are charged to the buyer;
- The returned product will be checked at the seller's premises and repaired or replaced at the sole discretion of the seller.
