

SHOWER HEADS FOR SHOWERS
USE AND MAINTENANCE MANUAL

SOFFIONEDOCCIA-LED-5 - 3F169

The photo is only indicative. The actual product may appear slightly different in color.

USE AND MAINTENANCE MANUAL

This manual is an integral part of the product you purchased. It contains important information for the installation and use of the product. Before using the product, read the instructions carefully, especially the safety instructions. Failure to follow the instructions and warnings may result in serious personal injury and damage to the product. The instructions provided are based on the rules and regulations valid in the European Union. For other countries, follow the relevant specific provisions. Keep the instructions in case of future need and pass them on to third parties.

INTENDED USE

Use the product only as described in the instructions. Any different use can cause damage to things or even people. This product is not a toy. The manufacturer or seller assumes no liability for any damage resulting from incorrect use or use that does not comply with the declared intended use.

Safety Warnings

Carefully read and follow all warnings and instructions. Failure to comply with them can result in property damage, serious personal injury, or even death. These warnings, instructions, and product safety provisions encompass many but not all possible risks and hazards. It is recommended to pay attention and correctly assess all hazardous situations. Incorrect use of the product could also cause danger to life.

Attention! Any repair work must only be carried out by qualified personnel in order to avoid a possible hazard. If necessary, contact a qualified technician. In the event of self-repairs, improper assembly or incorrect use, liability and warranty claims are void. Only spare parts that correspond to the original product data may be used for repairs.

WARNING! Hazards to children and persons with reduced physical, sensory, or mental capabilities or lack of experience and knowledge: Children should not play with this product. Cleaning must not be carried out by children or persons with reduced physical, sensory or mental capabilities.

NOTE: Risk of damage! The product can be damaged by improper use.

Content control

WARNING! Risk of damage to the product! If the packaging is opened without proper care with a sharp knife or other sharp tools, the contents may be damaged. Therefore, be very careful when opening the packaging!

Check that the product and individual components are intact and undamaged. Otherwise, do not use the product and contact the seller immediately.

The model shown in the installation steps may differ from the one contained in the package. However, the connections and installation steps remain the same.

Installation

Assembly and assembly of the shower head must be carried out by experienced persons or by your trusted plumber.

It is advisable to cover the base of the shower to avoid losing any components of the shower head.

Before starting the installation, turn off the supply of both cold and hot water.

Remove the existing shower head being careful not to unscrew the arm.

Before installing the shower head, make sure the rubber washer is positioned correctly.

Secure the shower head **by hand tightening. Do not use a wrench or pliers.**

When installing the shower head, hand tighten . **Do not tighten too tightly. Do not use a wrench or pliers.** Overtightening the fittings compromises the integrity of the system.

If more pressure is desired, the flow control washer can be removed.

Recommended Use

Tilt the infrared sensor up and down to adjust its range

Tabella problemi e soluzioni		
Problema	Causa	Soluzione
Basso flusso acqua	- le tubazioni dell'acqua sono sovraccariche	- collegare la valvola all'alimentazione principale dell'acqua calda e fredda
	- le valvole non sono regolate correttamente	- controllare e pulire la rondella di controllo del flusso
	- c'è dello sporco nelle tubature o nella valvola	- togliere la rondella di controllo del flusso

Cleanliness

Use only non-aggressive products for cleaning. DO NOT USE DETERGENTS based on ketones, hydrocarbons, acids, esters and ethers. For disinfection, follow the recommendations for use of the product. After cleaning the shower head, always rinse with clean water.
